TOTAL CONTROL—More than just security

Z-Wave Devices

Blue Ridge Security's **TotalControl** offers you a variety of services to remotely control your security system from anywhere in the world! Whether you are in the office or away on vacation or business travel, you will have "total control" of your system using your cell phone or mobile device. You can take remote control of your system using either our **TotalControl** Texting service or our **TotalControl** App. With these new options, your security system can do more than just keep you secure. It can lock your doors, turn your lights on and off, and set your thermostat – all by text message or

through the Blue Ridge Security App. Features that were only available in high-end, high-cost home automation systems are now affordably yours. There are a variety of devices to choose from, letting you select just the things you want to control. So when you go to bed and arm your system, it can also automatically lock the door, turn on selected interior lights, close the garage door, and set the thermostat to a more efficient setting...all with one button-press!

Keep An Eye On Your Home

Blue Ridge Security's **TotalControl** service also provides you with camera solutions that let you monitor your kids, family or caretakers from your mobile device. You can view up to six cameras 24-7, record video clips, watch streaming video and get real-time alerts via email. Video capability, accessible through our **TotalControl** App, gives you the ability to look in on your premises via your smart phone or tablet on Apple® and Android® devices. Add the protection and peace of mind that comes with being able to see and record activity in your home.

TotalControl Texting

With **TotalControl** Texting, you can control your security system with your cell phone by sending simple text messages. Each command received by your system is acknowledged back to you via a return text message so you know that your command was received. This service can be used by any text-capable phone...there's nothing to download or set up.

TotalControl App

Our **TotalControl** App provides all the functions of the security system keypad right on your smart-phone or mobile device. The App offers a visually pleasing display that allows you to control your system with just a touch of a button. Unlike our texting service, the App gives you the ability to remotely access interior and exterior wireless IP video cameras. The App is downloaded and configured in a matter of seconds. An attractive interface provides fast, easy access to the most-commonly used system functions.

Give Blue Ridge Security a call today at 1-888-407-7233 to see how you can use our TotalControl service to take control of your security system or see more at blueridgesecuritysystems.com

RESIDENTIAL Generators

For more than 20 years, Generac residential power systems have been helping provide worry-free lifestyles for thousands of homeowners. Protect your whole house against power outages, or just the most important things—like lights, refrigeration and air conditioning—with the #1 selling residential power systems on the market. If the power goes out, your Generac power system goes on—automatically—protecting your home and your lifestyle 24 hours a day, 365 days a year.

Blue Ridge Security Systems can help you select the Generac residential power system that meets your backup power needs as well as your budget. Our team can also provide professional installation and ongoing maintenance. Contact us for a free consultation. Check out our special limited-time offer and be prepared before “old man winter” arrives!

If the power goes out, will you be ready?

Emergency power plus savings when you need it!

At Blue Ridge Security, our primary goal is the security of you and your family. Each year we strive to bring you the best security products available. BlueAlert is the world's smallest two-way voice emergency pendant communicator. This fully-monitored 24/7 medical alarm system allows users to speak and listen to the operator **DIRECTLY** through a pendant. What else makes BlueAlert the right choice?

-  Operates anywhere from 300-600 feet in or around the home
-  The pendant is water-resistant—may be worn in the bath or shower
-  Can be worn as a necklace, bracelet, or clipped to your belt

With BlueAlert, you will be able to get help at the press of a button, 24 hours a day, 365 days a year.
